

The 4th IEEE International Conference on Cloud and Big Data Computing (CBDCom 2018)

October 8-12, 2018, Guangzhou, China

Call for Industry Session Papers

The IEEE International Conference on Cloud and Big Data Computing (CBDCom 2018) will provide a forum for both academia and industry professionals to present their latest research findings in different aspects of cloud and big data computing. In addition to full-length regular papers, CBDCom welcomes Industry Session Papers (ISP) for researchers and practitioners from industry to present and debate R&D challenges, practical solutions, case studies, and share field data.

The ISP session will provide a forum to discuss novel ideas and emerging results, presenting innovative applications and tools, and bring about novel research questions, approaches, and directions, which are initiated from the industry.

Submission Guidelines

The ISP papers may be no more than 6 pages in length, or at most 2 additional pages with the pages overlength charge, including figures, tables, and references.

The submitted manuscripts will be reviewed by members of the CBDCom 2018 Technical Program Committee. All selected papers will be orally presented in a special conference session. At least one author of each accepted paper must register and attend the conference to present the work. The accepted papers will be published in the conference proceedings by IEEE, and will be included in the Digital Library in IEEE Xplore.

Authors are requested to submit original, unpublished manuscripts in standard IEEE proceedings format in PDF. All submissions must be typeset in double-column IEEE format, with all fonts embedded. Submitted papers must include the contact information of all the authors. Please make sure you use the latest version of the templates to prepare your submissions. Due to the short interval between the notification of acceptance and the camera-ready deadline, we strongly encourage authors to follow the camera-ready formatting guidelines as close as possible.

The IEEE LaTeX and Microsoft Word templates for conferences can be found at IEEE Manuscript Templates for Conference Proceedings at

http://www.ieee.org/conferences_events/conferences/publishing/templates.html.

Submissions must be made via EasyChair: <https://easychair.org/conferences/?conf=cbdcom2018>.

When submitting, please select the appropriate Track for your paper (i.e., ISP).

Best Industry Session Paper Award

The IEEE International Conference on Cloud and Big Data Computing will be offering an award recognizing the Best Industry Session Paper presented at the conference. During the Industry Session, your paper will be reviewed by a judging panel selected from the conference organizing and program committee. Your paper will be judged based on the novelty, quality of research undertaken and clarity of presentation. The Best Industry Session Paper will receive an Award Certificate.
